Web Certified Administrator (WCA) for the WordPress® platform

Master WordPress Administration with Industry-Recognized Certification! The WordPress Certified Administrator (WCA) credential validates your ability to manage, secure, and optimize WordPress websites effectively. This certification is ideal for students, educators, and professionals looking to gain hands-on experience in website administration.

Candidates are required to have at least 150 hours of combined instruction and hands-on experience with using WordPress before taking the exam.
